

Vim Coffee Catering

Vim Coffee Catering offers a full-service specialty espresso bar for events of all sizes — from corporate gatherings and weddings to private parties and pop-ups.

Each service includes a full menu of handcrafted drinks made hot or iced, including espresso beverages, matcha, spiced chai, and a selection of teas. Dairy and alternative milks (such as oat and almond) are always included at no extra charge.

We offer both mobile cart setups and countertop espresso bars, with custom branding options available to match your event or brand. Our professional baristas handle everything from setup to service — all we need is access to a standard power outlet.

Let us bring the café experience to your next event.
